

EERI-NYNE Earthquake Brief May 29, 2015

This is a periodic briefing on Gorkha, Nepal Earthquake prepared by EERI-NYNE (New York – Northeast Chapter of the Earthquake Engineering Research Institute), in collaboration with regional organizations, with news on engineering reconnaissance, humanitarian assistance and technical aspects.

STATUS as of 5/7/15 (Actionaid.org)

Death toll has risen to 7,652 with the count of injuries reaching to 14,556.

191,058 homes are leveled to surface while 175,162 homes sustained partial damage.

10,718 government buildings are destroyed and 14,741 buildings were damaged partially.

Estimated 8 million people are affected by the earthquake and 2.8 million people being displaced.

REQUESTS FOR ENGINEERING AID

Let us know if you have or know of sources for donation of structural evaluation equipment below to local teams doing building damages assessment. The equipment will be shipped to INCLUDED.org is serving as NGO coordinator for damage assessments in Kathmandu. The needs are:

[Schmidt hammers - Rebar detectors - UT/laser devices - Crack gages](#)

We are grateful to Exponent® for their generous donation of crack gages towards this effort.

RECONNAISSANCE – KEY ORGANIZATIONS ON GROUND

EERI-LFE Reconnaissance: Learning from Earthquakes

[Lizundia & Shrestha to Lead EERI Team](#) (5/11/15)
